PERSONAL PROFILE

Second year Computer Science student at the University of Auckland with an interest for cybersecurity, web development, and UI/UX. I am eager to apply academic coding to real world web development solutions, and develop my skills in all areas. I want to contribute to a WDCC project to learn more about back end development, and sharpen my front end development skills in a practical setting.

EXPERIENCE

Co-Marketing/Communications Officer
UoA Science Students' Association
DEC 2025 - PRESENT

- UI/UX and Brand Consistency
- User-Centered Design
- Team Collaboration

Volunteers' Manager
